

Date: 10/23/2002

Agenda

Department of Justice Request in August

Discussed results with Melinda Wharton on September 3rd

Reprimand of Bob Chen on September 18th

Politically sensitive study which requires support of NIP Management

Review Bill Thompson E-mail Dated October 18th

Author List - MADDSP MMR/Autism Study Team

Review Additional Documents for DOJ

I won't have time to make my files available immediately

Will provide them to Beverly the 1st week of November

Review Preliminary Results

Next Steps

Continue to clean up data set

Set up meeting to review SAS program with Tanya and Margarette Kolczak

Construct final analysis data set with minimal amount of identifiable data

Consider fast track to distributing final data set externally

Request from the Department of Justice
National Center on Birth Defects and Developmental Disabilities
MMR and Autism Study

Index of Materials

- 1) Emails between MMR/Autism Study Team
- 2) Folder of the July 26th Autism Working Group Meeting
 - a. Contains the transcript from that meeting and subsequent working group meeting agendas
- 3) Folder with materials for abstractors for the study
 - a. Commonly asked questions/situations
 - b. MMR/Autism Study script which is used for scheduling appointments with individual school systems
- 4) Folder with abstraction updates
 - a. Abstraction updates between the Project Coordinator of the study and the Principal Investigator- in the form of memos
 - b. Abstraction Updates-tables describing the number of children abstracted in each system.
- 5) Folder with data collection instrument
 - a. The document is a hard-copy of the abstraction instrument used for the MMR/Autism study.
- 6) Folder with IRB materials
 - a. IRB renewal for 2002
 - b. Original IRB approval
- 7) Folder with Protocol that was distributed to the participating nine-school systems
- 8) Folder with approved protocol for the study
- 9) Folder with Analysis Plan of the study
 - a. To do list for the MMR/Autism Analysis Plan
 - b. Analysis plan draft dated 5/10/2001 that was sent to outside reviewers who are autism and epidemiology experts
 - c. Current analysis plan-after reviewers' comments were incorporated
- 10) Folder with the reviewers' comments of the analysis plan
 - a. Comments from reviewers
 - b. Summary of all of the reviewers comments
- 11) Folder containing documents describing the MMR record review process
 - a. Summary of record review process for delay less than one year or indication of pre-existing conditions
 - b. Instructions for MMR/Autism record review
 - c. MMR record review format outline
 - d. Example of record review form used by each reviewer
 - e. Hard copy of data instrument used to enter in data from the record review
 - f. List of birth defects had by some of the cases
- 12) Folder with preliminary draft of manuscript

Request from the Department of Justice
National Center on Birth Defects and Developmental Disabilities
MMR and Autism Study

Items not currently included in this request:

- 1) Preliminary results
 - a. This includes current and past drafts of the manuscript which contains preliminary results and any other results-containing information
- 2) Dataset
 - a. A dataset has not been provided as it is not yet finalized.
 - b. Edit reports regarding the data
 - c. Other data edits (i.e., misspelling of the names of children which is important for linkages with birth certificate files).
- 3) Emails from some members of the study which are dated from 1999-2000.
 - a. Gaining ability to obtain these emails off of archived files from the Center's computer network is underway. They were not readily available at the time of request.
- 4) All documents containing identifying information such as names of cases or controls and the participating schools.
 - a. Hard copies of each of the abstracted records
- 5) All flagged items either contain personal identifiers or are components of the dataset or relate directly to the dataset.

Request from the Department of Justice
National Center on Birth Defects and Developmental Disabilities
MMR and Autism Study

Items not currently included in this request:

- 1) Preliminary results |
a. This includes current and past drafts of the manuscript which contains preliminary results and any other results-containing information
- 2) Dataset |
a. A dataset has not been provided as it is not yet finalized.
b. Edit reports regarding the data
c. Other data edits (i.e., misspelling of the names of children which is important for linkages with birth certificate files).
- 3) Emails from some members of the study which are dated from 1999-2000. |
a. Gaining ability to obtain these emails off of archived files from the Center's computer network is underway. They were not readily available at the time of request.
- 4) All documents containing identifying information such as names of cases or controls and the participating schools. |
a. Hard copies of each of the abstracted records

Comment: These documents must be provided ASAP for review prior to the DOJ visit on 10/22.

Comment: DOJ may want to see how this data is kept. In addition, they need to know how much data is here, how long it would take to produce ALL of it, not just parts.

Comment: I will work with Angela on this.

Comment: Need to find out who has all of this. How much is there? How long would it take to produce, and what would be the best format to provide access?

Table 1: Descriptive Statistics Unmatched Birth Certificate Sample

Variable	Category	Total Sample				Birth Certificate Sample			
		Controls		Cases		Controls		Cases	
		N	Percent	N	Percent	N	Percent	N	Percent
Age in 1996	3 - 5 yrs	623	34%	214	34%	376	37%	127	36%
